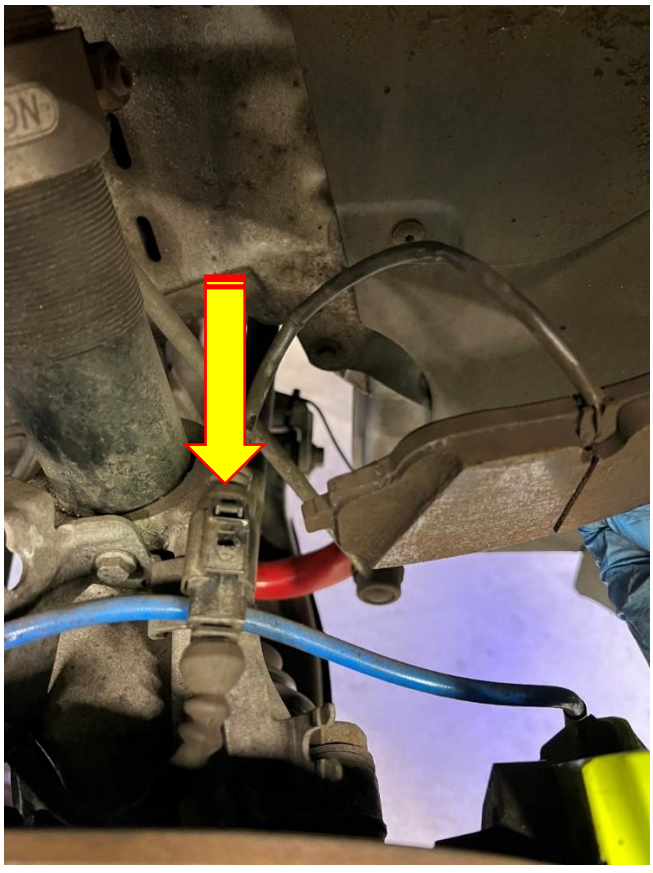
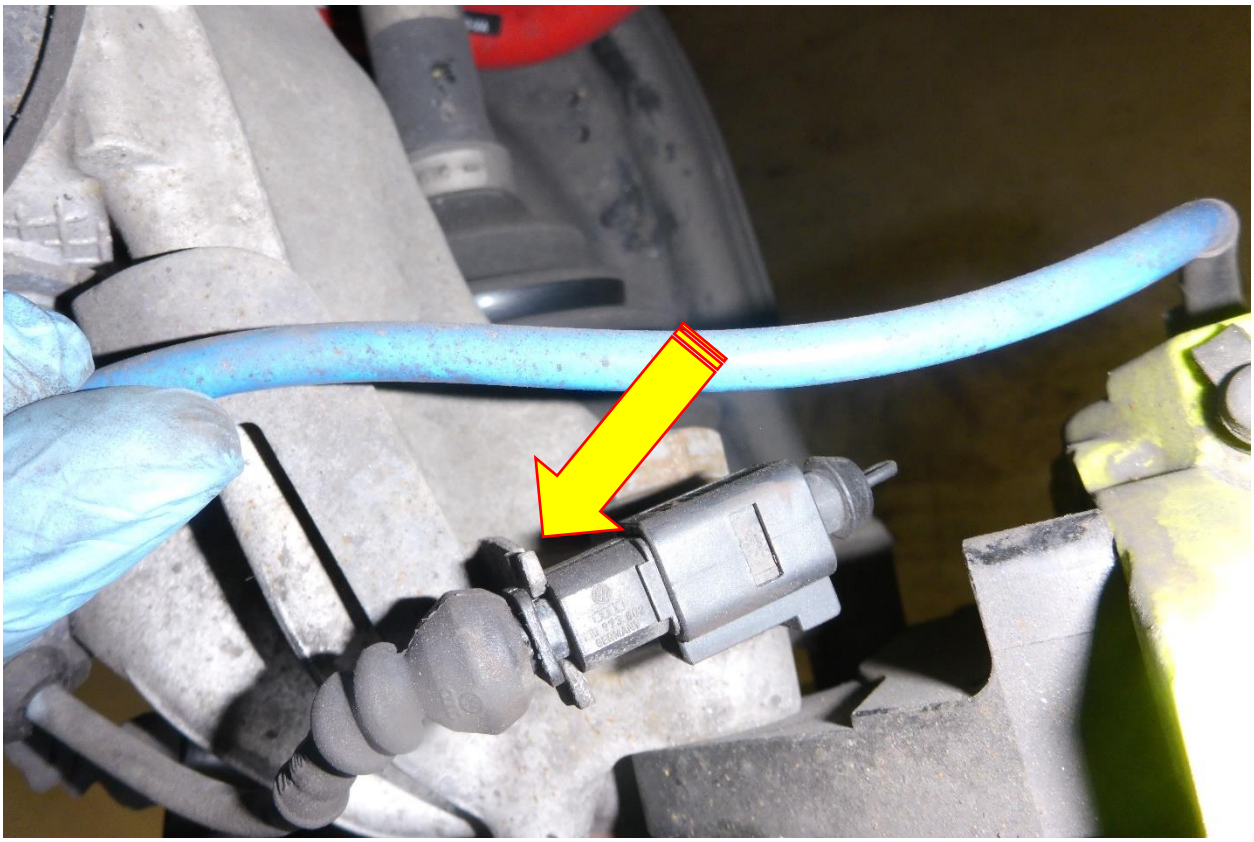
Brake Pad Wear Indicator

Please thoroughly read through and familiarize yourself with these instructions in their entirety prior to beginning any part of the installation process of any component. Please also ensure the vehicle and engine has cooled down sufficiently to avoid risking possible skin burns or other injury.

1. Unplug the pad wear indicator from its connector pushing down on the tab as seen below. Remove the OEM pad and lead.



2. Fit the Forge pad eliminator plug from where you removed the original pad wire from. Push down until you hear a positive click, then reposition the wiring loom into its original holder.



Your installation is now complete

Check out www.forgemotorsport.co.uk
